

## **Alexandra Education Committee**

Only through the excellence of quality education can a child hope to achieve its full potential and enjoy true success in life.

The Alexandra Education Committee contributes to the social and economic development of the Alexandra and wider community through enabling school children from disadvantaged backgrounds to achieve their potential through obtaining excellent education.

The Alexandra Education Committee's mission is to raise funds for bursaries to provide quality secondary education for the disadvantaged boys and girls from Alexandra.

In 2010 we sponsored Nonhlanhla for her full 5 years of high school at Sekolo sa Borokgo.

She achieved a university entrance (BD) pass with an average of 74%, and a WITS APS points count of 42 points.

In 2011 we sponsored Lihle for her full 5 years of high school at Waverley Girls High School. She now wants to study either for a B.Com (accounting) and is also interested in teaching.

This year (2016), we will again be sponsoring 2 students from the community for the full 5 years of their high schooling. Thembinkosi has started his high school career at Vuleka SSB in Randburg, and Boitumelo has started at Waverley Girls High School.
