

## **Columba Leadership**

The aim of the Columba Youth Leadership Academy is to activate the potential and self-belief of young people, and develop responsible socially and environmentally conscious and active citizens who lead through service.

6 years since inception, Columba has produced 3229 graduates. To date more than 850 young leaders from over 33 disadvantaged schools in 6 provinces have graduated from the Columba Youth Leadership Academy.

In July 2012 the International Partnership Network (IPN) recognised the Academy with the Global Best Award for the Best Partnership in Africa for the Development of Enterprises and Entrepreneurial Skills.

Committed to supporting the development of youth leadership and skills in South Africa Tiber Construction provided funding support for the Columba Youth Leadership Academy, enabling the academy to meet its goals, objectives, and positive outcomes.
